

Universal Label Technologies

The Barcode Specialists

WE NEED WAREHOUSE BULK STORAGE AND DOCK DOOR SIGNS - CAN ULT HELP?

"YES WE CAN!!!"

- **Retro Reflective** Material used for barcode label to achieve long distance scan
- Human Readable applied to sign for ease in visual of location
- Labels can be **over-laminated** to provide complete print protection. This is essential where **durability** is a requirement e.g. protection against, damp environment or outside use
- Labels are printed using data supplied from the customer / signs are then assembled and packaged **by location** for ease with installation
- Lightweight yet durable grades of UV resistant **PVC or Aluminum** ULT can cut and form signs for temporary hanging or permanent fastening applications
- Universal Label Technologies is capable of including the installation as part of your quote
- ULT will guarantee **NO MISSING LOCATIONS**
